ANX-01 | Follow-up practice | Adults

Recording an example of worry and its effects

Plan a limited record and return to it in conversation; continuous monitoring is not required.

Client code _____ Date _____ Session number _____

01 Shared planning

What context will we record, when and in what comfortable way?

02 The situation that happened

When, where and what can be described as fact?

03 The worry that arose

What was I afraid would happen, in my words?

04 Effects on action and functioning

What did I do or not do, and how did it affect my day?

05 What helped and what was missing

A response, resource or support, without assuming an appropriate response was available.

06 A topic to revisit in the session

What would I like to understand, and what made recording difficult, if anything?

Mindful Path
