ANX-02 | Follow-up practice | Adults

Observing a response and its consequences

We will examine one example without deliberately changing protection, checking or support options.

Client code _____ Date _____ Session number _____

01 The agreed recording focus

Context, scope and a possible recording method.

02 The situation and concern

What happened and what did I expect?

03 The response and its purpose

What did I do or not do, and what did I hope to achieve?

04 The immediate outcome

What changed in emotion, information or ability to act?

05 The later effects

What happened to worry, time and functioning later in that context?

06 A question to explore with the therapist

What needs more information and what conditions should be considered?

Mindful Path
