01 The worry and context

What question was chosen for our work?

02 The basis for the choice

Facts, practical needs and uncertainty known in the session.

03 The agreed action or response

What will we try, when and with what support?

04 The actual attempt

What was done and what happened? If not attempted, what were the barriers?

05 Learning and new information

What can be concluded and what is still unknown?

06 A question and next steps to explore together

What needs clarification or adjustment before another step?
