ANX-06 | In-session worksheet | Adults

Maintenance and continued work on worry

Review functioning, goals and learning, and choose suitable next steps. Unit count does not determine treatment ending.

Client code _____ Date _____ Session number _____

01 What changed and what remains open

Compare with the personal baseline and circumstances without reconstructing missing data.

02 Expected challenging situations

In what contexts should a response or adjustment be prepared?

03 Personal signs needing attention

A change I recognize in routine, functioning or worry patterns.

04 Helpful tools, support and conditions

What was tried and fitted, and what is unhelpful or unavailable?

05 Responding and seeking help

An agreed first step and when further professional assessment is needed.

06 Review timing and continued treatment

What will be reviewed and when: continuation, a return to a unit or a professionally assessed ending?

Mindful Path
