**Children, approximately ages 6 to 11**

# Where am I starting?

We will choose one small thing to notice. This sheet helps me compare myself with myself later.

Client code _____ Date _____ Session number _____

> There is no score or competition. A hard day or an attempt that did not happen can also help us learn.

## 01 What would I like to move forward with?

Something important to me that I want to do or take part in.

## 02 What is it like for me now?

An example from a time we choose together: what did I do, and what was hard?

## 03 What will we notice to learn about change?

An action we can see. We can count attempts if that helps.

## 04 How will we remember, and what will help me keep track?

A word, a mark or a conversation; who will help only in the way we agreed?

## 05 When will we check again, and what else matters to remember?

We will choose a date and note changes in the time, place or help I received.
