Core 01 | Children, approximately ages 6 to 11 | Practice between sessions

My small step before the next meeting

We will plan together in the meeting. After trying, we will return to the sheet and see what I learned.

Client code _____ Date _____ Session number _____

> This is an attempt to learn. I can ask for help, and we can change the step together if it is too big.

01 What did I choose to try?

How does this step connect with something that matters to me?

02 When and where will I try?

Together we will choose when and how many times suit me.

03 What would help me start?

A reminder, preparation or someone helping in the way we agreed.

04 If it is hard, what can I do?

How could I make the step smaller or ask for help?

05 After trying: What happened?

If I did not try, what made starting hard?

06 What did I discover, and what would I like to share in our meeting?

Something about the step, the help I received or what suits me.

Mindful Path
