In-session worksheet | Adults

Two examples for understanding recurring thoughts

We will examine two events and compare interpretations and their effects, without assuming a pattern in advance.

Client code _____ Date _____ Session number _____

01 First event

What happened, and in what context? An observable description.

What thought or image appeared, and what did it mean to me?

02 Another event

What happened, and in what context? An observable description.

What thought or image appeared, and what did it mean to me?

03 Similarities and differences in interpretations and circumstances

What theme might recur, and what differs or does not fit the hypothesis?

04 Effects on feelings and actions

What did I feel and do in each situation? What else in the surroundings had an effect?

05 A question for further work

What should we explore before concluding anything about the pattern or its meaning?

Mindful Path
