Professional notes | For the therapist only

Initial therapist overview

Professional working notes. Distinguish reports, observations and hypotheses, and note missing information.

Client code _____ Date _____ Session number _____

> This sheet is not a diagnostic interview, full risk assessment or consent form. Missing information is not a negative finding.

01 Information sources, focus and time frame

Who reported what and when, reason for referral, duration and frequency of the difficulty; differences between sources.

02 Current functioning and context

Affected and preserved areas, life circumstances, development and relevant preferences.

03 Relevant background and further assessment

Previous treatment, relevant health information and changes; the information source and what has not yet been checked.

04 The client's strengths, support and goals

Available resources, barriers and adaptations; refer to ASM-A02 and INT-I04 as needed.

05 Checking safety and suitability of the setting

What was assessed and how, what is still needed, actions or coordination completed, and who is responsible for follow-up.

06 Initial understanding and framework for the work

Hypotheses to explore, limits on sharing, agreements discussed, adaptations and a next step with a date.

Mindful Path
