ANX-01 | Follow-up practice | Teenagers, approximately 12–17

Capturing one example of worry

With the therapist, we will choose a brief record at a time and scope that suit me.

Client code _____ Date _____ Session number _____

01 What did we choose to record and how will I remember?

An everyday context and a recording method that protects my privacy.

02 What actually happened?

Describe one situation; there is no need to seek an especially triggering one.

03 What worry came up?

A sentence or image; I can say I do not remember exactly.

04 How did worry affect what I did?

What did I do or avoid, and what changed in that moment?

05 What helped and what did not fit?

An action, support or condition that mattered to me.

06 What will I bring to the next conversation?

A question, learning or difficulty with recording itself.

Mindful Path
