ANX-02 | In-session worksheet | Teenagers, approximately 12–17

Worry, my response and what followed

We will explore a possible link between concern, response and consequences without deciding beforehand what is unnecessary.

Client code _____ Date _____ Session number _____

01 What started this moment?

An event, thought or sensation as I remember it.

02 What did I predict would happen?

The threat or outcome I feared.

03 What did I feel and notice in my body?

Words are enough; a numerical rating is optional.

04 How did I respond and what was I trying to achieve?

Checking, seeking reassurance, withdrawing or another response; what was its role?

05 What happened immediately and later?

Relief, returning worry, effects on participation or another result.

06 What should I explore with the therapist?

What was necessary, what may limit me and what information is missing?
