Applying learning in another chosen context

Examine use of learning within an agreed plan, without automatically increasing scope or difficulty.

Client code _____ Date _____ Session number _____

01 Learning from the previous attempt

A conclusion limited to the available data, not a promise about the future.

02 The additional situation and its differences

A context chosen with the therapist and its relevance to my goal.

03 The agreed plan

A step, conditions, support and options to adapt or stop.

04 Actions and outcome

What happened and what influenced it, including not attempting.

05 Learning and functioning alongside the unknown

What became possible and what still needs exploration?

06 A topic to revisit in the session

What will we examine before deciding next steps?
