ANX-05 | In-session worksheet | Teenagers, approximately 12–17

Comparing expectation and outcome without requiring certainty

Explore this particular attempt and what remains unknown. Anxiety is not the only measure of learning.

Client code _____ Date _____ Session number _____

01 What was my expectation?

Return to what was recorded before the activity.

02 What actually happened?

Observation, action and experience as I remember them.

03 What similarities and differences did I find?

What matched the expectation and what differed?

04 What else might explain the outcome?

Context, help, missing information and possible explanations.

05 What did I learn and what is still unknown?

A conclusion limited to this case, without promising what always happens.

06 What next step will we choose together?

What matters to develop and what needs adjustment before another attempt?

Mindful Path
