Adults

A personal starting point

We will define a starting description and a personal sign of change to learn from what follows under clear conditions.

Client code _____ Date _____ Session number _____

> This sheet is not a validated questionnaire and does not produce a diagnostic score. Comparison is personal and accompanied by discussion.

01 What area or goal will we examine?

Why does it matter to me, and what from the goals sheet would we like to track?

02 What is the situation like today?

Observable action or functioning over a specified period, including the support and opportunities available.

03 What sign would describe progress?

An action, participation or verbal example; if counting, we will define what is counted.

04 How and over what period will we gather information?

An agreed simple method and who will record it. Missing information will remain missing information.

05 When will we review it, and what must we consider?

A review date and changes in circumstances, support or opportunities to act.

Mindful Path
