From situation to response and choice

We will describe a specific event to understand links between interpretation, feeling and response, alongside conditions and support.

Client code _____ Date _____ Session number _____

01 The situation

What happened, when and in what context? Describe observable facts.

02 The thought and meaning

What thought appeared? What meaning did I give the situation?

03 Feelings and body sensations

What did I feel, how intense was it in words, and what did I notice in my body?

04 Response and outcome

What did I do or avoid doing? What helped immediately, and what was the later effect?

05 Context, conditions and missing information

What else in the surroundings or conditions affected the experience? What remains unknown?

06 What helped, and what I want to explore

Support, a response or a question about links within the experience to bring to our meeting.
