The thought I noticed

Together we will choose an everyday moment and a recording method that suits you. You can tell the example aloud in the session.

A suitable moment, recording method and any help I choose.

02 What happened in that situation?

I can say I do not remember or that this is a possibility I considered later.

Does this recall an earlier example, and what differs this time?

05 What did I feel, and how did I respond?

What else in the surroundings or circumstances had an influence?
