Practice between sessions | Children, approximately ages 6 to 11

Trying what we chose together

We will plan in the session. Afterwards, I can write or tell what happened and what I learned.

Client code _____ Date _____ Session number _____

> I do not have to stop feeling something to try. If the step does not fit, we can change it together.

01 When would I feel comfortable trying?

A suitable everyday moment, when to try and the help we agreed on.

02 What familiar thought might come up?

And what sentence did we choose that might help?

03 What did I choose to do?

A small step that suits me; I can ask for help too.

04 After trying: What happened?

What did I try, and what did I see or hear afterwards?

05 What helped and what was hard?

How did I feel? I can also say I did not try and explain why.

06 What will I bring to the next session?

Something I learned or a question I want to explore.

Mindful Path
