CORE-05 | Follow-up practice | Adults

Practical experience and learning from action

Recording helps assess how well the action fits and the conditions it needs.

Client code _____ Date _____ Session number _____

01 The action and original intention

What was planned, when and how did it relate to the goal?

02 What was actually done

What was done and how much? If not attempted, what prevented starting?

03 Experience and impact

What was felt, and what changed in functioning or participation, if anything?

04 Helpful factors and barriers

What conditions or help affected the ability to act?

05 Adjustments for next time

What should be kept, reduced, changed or replaced?

06 A topic for the next conversation

What did I learn, and what decision would I like to explore together?
