CORE-07 | Follow-up practice | Adults

Learning from the agreed experiment

Record action and outcome separately from interpretation, and examine conclusions with the therapist.

Client code _____ Date _____ Session number _____

01 The expectation and original plan

What was chosen to explore and what was agreed to do?

02 Actual actions and conditions

What was done, what changed and what barriers prevented an attempt?

03 The observed outcome

What information was collected in the agreed way, without filling in missing details?

04 Comparison with the expectation

What supports or qualifies the expectation, and what cannot be decided?

05 Limits of the conclusion

What conditions, explanations or other influences should be considered?

06 Learning and a question for the session

What can be cautiously concluded, and what should we clarify before choosing next steps?

Mindful Path
