CORE-07 | Follow-up practice | Older adults

What happened and what can we learn?

Complete in writing or conversation with the therapist. The goal is learning from the agreed activity.

Client code _____ Date _____ Session number _____

01 What did I expect and what did we plan?

A reminder of the question and activity chosen together.

02 What did I do and under what conditions?

I can describe a plan change or why I did not try.

03 What did I actually see or hear?

The information we chose to notice, without adding what we do not know.

04 What was similar to or different from my expectation?

What does the outcome help explain and what is still unclear?

05 What else influenced what happened?

Conditions, support, missing information or another possible explanation.

06 What would I like to explore with my therapist?

Learn cautiously and choose next steps together, without changing the experiment alone.

Mindful Path
