CORE-07 | Follow-up practice | Teenagers, approximately 12–17

# Recording the attempt and leaving room for uncertainty

We will examine events in relation to the expectation and plan. One result is not a conclusion about me or every situation.

Client code _____ Date _____ Session number _____

## 01 What was the expectation and plan?

The question and experiment agreed with the therapist.

## 02 What was actually done and under what conditions?

If not attempted or changed, what led to that?

## 03 What information was observed?

What did I see or hear about what we chose to examine?

## 04 How does the outcome relate to the expectation?

What fitted, what differed and what remains unclear?

## 05 What else should we consider?

Conditions, help, missing information and other possible explanations.

## 06 What did I learn and what will I bring to the conversation?

A cautious conclusion and further question; do not plan another experiment alone.

Mindful Path
