CORE-07 | In-session worksheet | Adults

From a specific expectation to a planned test

With the therapist, we will plan a suitable experiment to inform an expectation, with consent and adaptation to conditions.

Client code _____ Date _____ Session number _____

01 The expectation and question to explore

What do I think will happen in a particular context, and what do I want to learn?

02 The agreed experiment

What will the action involve and how much? Define it practically.

03 Planned observable information

What will we observe in relation to the expectation? What outcome may be inconclusive?

04 Conditions, preparation and support

Time, place, resources, roles and relevant agreements.

05 Boundaries and adaptations

What was assessed with the therapist, what is excluded and when will we change, postpone or stop?

06 Reviewing the outcome and next steps

How will we record and when review? What if the experiment is not attempted or unclear?

Mindful Path
